## EXPERIENCE

**Principal Animation Engineer** · The Farm 51 2025 – Present  
Rescue Drone Simulator

- Own all animation, movement, and input systems for Rescue Drone Simulator.
- Architect and implement the player/drone control feel end to end.
- Hold the game's full CPU budget.

**Lead Combat Engineer** · The Farm 51 2021 – 2025  
Chernobylite 2: Exclusion Zone

- Built and led a team of 10+ animators, programmers, and character artists from day one — hiring, reviews, and production planning.
- Directed every motion capture session on the project.
- Designed combat end to end and owned player 3C.
- Authored a custom Gameplay Ability System and shipped Motion Matching for the main hero.
- Created the dialogue system.
- Created every animation pipeline tool.

**Lead Animator & Programmer** · The Farm 51 2019 – 2021  
Chernobylite 1

- Led three animators: gave feedback and coded animation pipeline tools.
- Implemented every cutscene in the game.
- Owned the animation production schedule and quality bar through release.
- Optimized animation CPU cost with a focus on console performance.

**Regular Programmer** · The Farm 51 2018 – 2019  
Chernobylite 1

- Grew the early prototypes into production movement, animation, and combat systems, owning features end to end.
- Built the dialogue system — logic and animations.
- Directed motion capture sessions for all character animations in the game.

**Junior Programmer** · The Farm 51 2017 – 2018  
Chernobylite 1

- Prototyped main-character game input.
- Animated locomotion prototypes for every enemy in the game.
- Built gunplay prototypes in code and animation.
- Owned the early character animation and rigging pipeline.
