EXPERIENCE

Principal Animation Engineer · The Farm 51 2025 – Present
Rescue Drone Simulator

- Own networked animation, movement, and input systems for Rescue Drone Simulator — built fully for multiplayer.
- Shape player/drone handling feel — camera, response curves, and control weight.
- Own the game's CPU budget — profile and enforce frame costs in Unreal Insights.
- Created AnimFlex — an AI plugin for automatic mocap cleanup of character gestures and locomotion.

Lead Combat Engineer · The Farm 51 2021 – 2025
Chernobylite 2: Exclusion Zone

- Built and led a team of 10+ animators, programmers, and character artists from day one — hiring, reviews, and production planning.
- Owned mocap production end to end — planning, direction, and delivery.
- Designed the full combat loop and owned player 3C.
- Authored a custom C++ Gameplay Ability System and shipped Motion Matching for the main hero.
- Built Chernobylite 2's dialogue system and scaled animation pipeline tools for the full team.

Lead Animator & Programmer · The Farm 51 2019 – 2021
Chernobylite 1

- Led three animators: gave feedback and built DataTable-driven procedural animation tools and MotionBuilder UX plugins.
- Implemented every cutscene in the game.
- Owned the animation production schedule and quality bar through Chernobylite 1's release.
- Optimized animation CPU cost for console frame budgets on Sony devkits.

Programmer · The Farm 51 2018 – 2019
Chernobylite 1

- Grew early prototypes into production movement, animation, and combat systems.
- Built the dialogue system — logic and animations.
- Directed motion capture sessions for all character animations in the game.

Junior Programmer · The Farm 51 2017 – 2018
Chernobylite 1

- Prototyped main-character game input.
- Animated locomotion prototypes for every enemy in the game.
- Built gunplay prototypes in code and animation.
- Owned the early character animation and rigging pipeline.

SKILLS

Stack

C++, Unreal Engine, linear algebra, Python

Tools

Visual Studio, ReSharper, Unreal Insights, Rewind Debugger, Animation Blueprints, Control Rig, Behavior Trees, State Trees, Sequencer, IK Retargeter, Maya, MotionBuilder, Perforce, Jenkins, Jira

Focus

Animation systems, CPU optimization, team leadership, procedural animation, 3C & gameplay programming, combat design, animator pipelines, motion capture director

LOCATION

Silesia, Poland

EDUCATION

University of Silesia 2014 – 2017
Engineer, Computer Science
Specialization: Game Programmer

LANGUAGES

Polish, English

INTERESTS

Martial arts (Polish National Amateur Muay Thai champion), thrash metal, MMORPGs, Star Wars, Dungeons & Dragons, Chernobyl Exclusion Zone
